TERRAMAGNA GROUP produces handcraft wines and exports them over 60 countries over 1 000 000 bottles each year. Tradition, quality and innovation are in the core values of the family and they are present in all of our wines and brands. Having its main facilities in Lietor (Castilla), Terramagna controls an extension of 300 hectares of vineyards and has a dedicated team of enologists.

The full control in the production process and the high standards of service guarantees the best quality in each of our brands. In our vineyards we have over 14 different grape varieties, with international well known grapes like Cabernet Sauvignon, Syrah, Malbec, Pinot Noir or Sauvignon Blanc, but as well with local grapes such as Garnacha Tintorera, Tempranillo, Monastrell or Verdejo. The land is in a perfect location, with an altitude between 600 to 800 meters above sea level and surrounded by small mountains with its landmark peak of mount Trifillas. This ideal location has its own microclimate environment that allows our enologist team to produce regional hero wines with strong personality.

What is special in our winery? Our wines gather the essence of the land of their origin and the know-how of the traditional elaboration. They adapt to the market trends of each country in which we are present. The spirit of Terramagna is reflected in each one of its creations. The knowledge of each and every one of the details of our land is what allows us to continue evolving, innovating and, especially, surprising those who trust in the way we are doing things.
