Winery history: Bodegas Alcardet was founded in 1972 as a result of the dynamic and entrepreneurial character of a group of winegrowers. We consider that the wine is the protagonist of a story, a culture and a symbol of identity. Each of our wines originates from very specific vineyards. In order to enhance excellent quality wines with their own personality, both the wine and the vineyard are worked in synergy. The balance expressed by our wines is the result of the dedication, patience, care and work carried out in the vineyards and later in the winery. All these nuances can be felt in all our wines, from our ecological essence to our symbol of identity.

The special climate of this enclave of the heart of La Mancha, more than 780 meters of altitude and its characteristic limestone soil, requires maximum effort and dedication to obtain rewards in the form of high quality grapes. The contrast between the aridity and dryness of the summers and the rigor of the winter months with scarce rains curd and define the personality of our vineyards. Only in these conditions, deliciously extreme, the vine is seated giving wines of high expression with the character of this land.
