Pago Calzadilla is a small, family-run estate founded in 1980 by Paco Uribes & Celia Madero, a couple of wine lovers who decided to leave their life in Madrid and come back to the origins in Cuenca with the aim to make boutique wines in a Virgin soil never used before to make wines. A big challenge to our family in an estate located in the heart of a very unknown region as Cuenca, producing a limited quantity of highly expressive wines Calzadilla is a *Vino de Pago*, which is a top Spanish Quality Certified single vineyard within a DO, having demonstrated unique characteristics to be deemed worthy of the esteemed 'Pago' status and own DO Protected Pago Calzadilla.

Calzadilla covers 26has, 24has planted and divided into small plots separated by soils: Limestone, Calcareous or Sandy-calcareous, orientation and grapes planted. Organic farming, sustainable and artisanal winemaking, our aim is to respect our land and take care of it been not interventionist and respectful.

Just 80.000 bottles per year, 5 references in our wine range, and several International Awards and Recognitions which help us to continue in this amazing & passionate project.

What is special in our winery? Calzadilla received the name due of the presence of an old Roman road close to our estate and is linked to our location in Huete village. Art & Culture have been always part of this project. We make most of our wines for ageing, keeping care of them at least during 3 years before being launched to the market. Customers will enjoy wines when it will be ready to drink.
