• **Prod capacity :** 500.000 bottles

Pago los Cerrillos – Bodegas Montalvo Wilmot is a boutique family owned winery, that dates back to the XIXth century and as a result, is a perfect blend of tradition and modern technology. With an on purpose reduced capacity of 500.000 bottles we focus on the production only of high quality wines. Thanks to that we were declared VINO DE PAGO in 2019, a small group of only 20 wineries with their own DOP as a guarantee of quality and origin. Our production is based on an 80 Has vineyard that is part of our 400 Has property, where we grow the varieties Tempranillo, cabernet Sauvignon, Syrah and Petit Verdot. Long macerations, no pressing of the grapes, several delestages and battonages during the whole process guarantee high quality wines, very aromatic, fully bodied and with a very special and distinctive character. All our red wines are rated above 89/90 points by different awards, magazines and are present in the best markets in the world.

What is special in our winery? VINO DE PAGO WINERY. Only 20 existing in Spain nowadays meaning the highest level of origin and quality certification by the EU and being located in the top of the pyramid of the DO's qualification system.
