BOTTLED BAG IN BOX BULK ORGANIC OTHER

**Main International Markets:** Japan, USA.

If you ask anyone in the **Lucendo family** about their profession, you will get the same answer: Oenologist. And we're not even exaggerating! Their history begins in 1919, when César Lucendo Asensi inaugurated the Lucendo Winery in Argamasilla de Alba.

Currently, the Lucendo family of winemakers (brothers, sisters, father, cousins) vinify and assess and commercialise at some 15 wineries in La Mancha but also one in Ribera del Duero, and they have their own winery like a museum in the aspect of conservation of traditional features where they make very special organic wines such as El Linze which is help saving the endangered Tinto Velasco varietal.

The fourth generation led by Federico and Rafael is the perfect example of the spirit and inspiration that has prevailed in their family for so many years; innovation and differentiation. We have the longest organic vineyards in the region, in Quero, Toledo. We cultivate almost 25 Ha. of vineyard, some of them extremely old, ungrafted, dry-farmed, without adding any chemical component. Our varieties: Chardonnay, Viognier, Airén, Sauvignon Blanc, Tempranillo, Syrah, Cabernet Sauvignon, Tinto Velasco. Our production: about 100.000 bottles per year.

**What is special in our winery?** Small production, with great care and integrity is the best way to make wine.
